SMTC CORPORATION
Notes to Interim Consolidated Financial Statements

1. Nature of the business

SMTC Corporation (the “Company”) is a mid-tier provider of end-to-end electronics manufacturing services, or EMS, including product design and sustaining engineering services, printed circuit board assembly, or PCBA, production, enclosure fabrication, systems integration and comprehensive testing services. SMTC facilities span a broad footprint in the United States, Mexico, and China, with approximately 1,330 full-time employees. SMTC’s services extend over the entire electronic product life cycle from the development and introduction of new products through to growth, maturity and end-of-life phases. SMTC offers fully integrated contract manufacturing services with a distinctive approach to global original equipment manufacturers, or OEMs, and technology companies primarily within the industrial, computing and communications, power and energy and medical market segments. In addition, the Company operates an international sourcing and procurement office in Hong Kong.

The accompanying unaudited interim consolidated financial statements of the Company have been prepared in accordance with the accounting principles and methods of application disclosed in the audited consolidated financial statements within the Company’s Form 10-K for the fiscal period ended January 3, 2016, (“Form 10-K”) filed with the Securities and Exchange Commission (the “SEC”) on March 17, 2016. The accompanying unaudited interim consolidated financial statements include adjustments of a normal, recurring nature that are, in the opinion of management, necessary for a fair statement of the consolidated financial statements under generally accepted accounting principles in the United States (“U.S. GAAP”). These unaudited interim consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements contained in the Company’s Form 10-K. The consolidated balance sheet at January 3, 2016 was derived from the audited annual consolidated financial statements, but does not contain all of the footnote disclosures from the annual consolidated financial statements.

2. Recent Adopted Accounting Pronouncements

In June 2014, the FASB published ASU 2014-12: Compensation – Stock Compensation (Topic 718). The standard is amended to require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. The standard is effective for all entities for years, and interim periods within those years, beginning after December 15, 2015. The adoption of ASU 2014-12 had no impact on our consolidated financial statements.

In April 2015, the FASB published ASU 2015-03: Presentation of Debt Issuance Costs (Topic 835-30). The standard provides guidance about simplifying the presentation of debt issuance costs. Under this ASU, an entity presents such costs in the balance sheet as a direct deduction from the related debt liability rather than as an asset. Amortization of the costs is reported as interest expense. Effective for fiscal years and interim periods within those fiscal years, beginning after December 15, 2015. The adoption of ASU 2015-03 had no impact on our consolidated financial statements as our current debt issuance costs relate to a revolving credit facility.

In April 2015, the FASB published ASU 2015-04: Retirement Benefits (Topic 715). The amendments intend to reduce complexity by providing a practical expedient that permits the entity to measure defined benefit plan assets and obligations using the month-end that is closest to the entity’s fiscal year-end and apply that practical expedient consistently from year to year. The amendments in this Update are effective for public business entities for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The adoption of ASU 2015-04 had no impact on our consolidated financial statements.

Recent Accounting Pronouncements

In May 2014, the FASB published ASU 2014-09: Revenue from Contracts with Customers (Topic 606), which supersedes (i) revenue recognition requirements in Topic 605 and most related industry-specific guidance, and (ii) cost guidance included in Subtopic 605-35, Revenue Recognition—Construction-Type and Production-Type Contracts, and amends existing requirements for recognition of a gain/loss on the transfer of nonfinancial assets that are not in a contract with a customer (for example, assets within the scope of Topic 360, Property, Plant, and Equipment, and intangible assets within the scope of Topic 350, Intangibles—Goodwill and Other) to be consistent with the new requirements. In August 2015, the FASB published ASU 2015-14 Topic 606 which effectively postponed the effective adoption requirement by one year such that the standard is effective for years beginning after December 15, 2017 including interim periods with those years. Early adoption is permitted only for those annual reporting periods beginning on or after December 15, 2016. The Company continues to evaluate the impact of this accounting standard. The impact of adoption of the standard has not yet been determined.

Recent Accounting Pronouncements cont'd

In August 2014, the FASB published ASU 2014-15 Topics 205-40: Presentation of Financial Statements – Going Concern. The standard provides guidance about management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern or to provide related footnote disclosures. Effective for years ending after December 15, 2016 and for years and interim periods thereafter. The impact of adoption of the standard has not yet been determined.

In July 2015, the FASB published ASU 2015-11: Simplifying the Measurement of Inventory (Topic 330). The amendments in this Update more closely align the measurement of inventory in U.S. GAAP with the measurement of inventory in International Financial Reporting Standards (IFRS). FASB has amended some of the other guidance in Topic 330 to more clearly articulate the requirements for the measurement and disclosure of inventory. However, the FASB does not intend for those clarifications to result in any changes in practice. Other than the change in the subsequent measurement guidance from the lower of cost or market to the lower of cost and net realizable value for inventory within the scope of this Update, there are no other substantive changes to the guidance on measurement of inventory. For public business entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. All other amendments will be effective upon the issuance of this Update. The impact of adoption of the standard has not yet been determined.

In November 2015, the FASB published ASU 2015-17: Income Taxes (Topic 740). The amendment requires that deferred tax assets and liabilities be classified as non-current in a classified statement of financial position. The amendments in this Update are effective for public business entities for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. The impact of adoption of the standard has not yet been determined.

In January 2016, the FASB published ASU 2016-01: Financial Instruments - Overall (Topic 825-10). The amendment addresses certain aspects of recognition, measurement, presentation and disclosure of financial assets and liabilities. The amendments in this ASU are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The impact of adoption of the standard has not yet been determined.

In February 2016, the FASB published ASU 2016-02: Leases (Topic 842). The amendment proposes that all lessees should recognize the assets and liabilities that arise from leases. Elections may be available for those leases with terms of 12 months or less. The amendment still retains the distinction between finance leases and operating leases. The amendments in this ASU are effective for public business entities for financial statements issued for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. The impact of adoption of the standard has not yet been determined.

In March 2016, the FASB published ASU 2016-09: Compensation – Stock Compensation (Topic 718). The amendment simplifies several aspects of accounting for share-based payment transactions including income tax consequences, classification of awards as either equity or liabilities, classification on the statement of cash flows and accounting for forfeitures. Some of the areas for simplification apply only to nonpublic entities. The amendments in this ASU are effective for public business entities for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. The impact of adoption of the standard has not yet been determined.

In March 2016, the FASB published ASU 2016-08: Revenue from Contracts with Customers (Topic 606). The amendment clarifies the implementation guidance on principal versus agent considerations. The amendments of this update do not change the core principles of the guidance. The amendment of this ASU is effective for years beginning after December 15, 2017 including interim periods with those years. Early adoption is permitted only for those annual reporting periods beginning on or after December 15, 2016. The Company continues to evaluate the impact of this accounting standard. The impact of adoption of the standard has not yet been determined.

Recent Accounting Pronouncements cont'd

In April 2016, the FASB published ASU 2016-10: Revenue from Contracts with Customers (Topic 606), which clarified application of the standard in identifying performance obligations and licensing arrangements. The amendments in this Update affect the guidance in Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective. The amendment is effective for years beginning after December 15, 2017 including interim periods with those years. Early adoption is permitted only for those annual reporting periods beginning on or after December 15, 2016. The Company continues to evaluate the impact of this accounting standard. The impact of adoption of the standard has not yet been determined.

In May 2016, the FASB published ASU 2016-12: Revenue from Contracts with Customers (Topic 606), which included narrow-scope improvements and practical expedients. Specifically the update addresses application of collectability, presentation of sales taxes, noncash consideration, and completed contracts and contract modifications at transition. The amendments in this Update affect the guidance in Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective. The amendment is effective for years beginning after December 15, 2017 including interim periods with those years. Early adoption is permitted only for those annual reporting periods beginning on or after December 15, 2016. The Company continues to evaluate the impact of this accounting standard. The impact of adoption of the standard has not yet been determined.

In May 2016, the FASB published ASU 2016-13 Financial Instruments – Credit losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The main objective of this Update is to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. To achieve this objective, the amendments in this Update replace the incurred loss impairment methodology in current U.S. GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The amendment is effective for years beginning after December 15, 2019 including interim periods with those years. Early adoption is permitted only for those annual reporting periods beginning on or after December 15, 2018. The Company continues to evaluate the impact of this accounting standard. The impact of adoption of the standard has not yet been determined.

In August 2016, the FASB published ASU 2016-15 Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. This Accounting Standards Update addresses the following eight specific cash flow issues: Debt prepayment or debt extinguishment costs; settlement of zero-coupon debt instruments or other debt instruments with coupon interest rates that are insignificant in relation to the effective interest rate of the borrowing; contingent consideration payments made after a business combination; proceeds from the settlement of insurance claims; proceeds from the settlement of corporate-owned life insurance policies (COLIs) (including bank-owned life insurance policies (BOLIs)); distributions received from equity method investees; beneficial interests in securitization transactions; and separately identifiable cash flows and application of the predominance principle. The amendment is effective for years beginning after December 15, 2017 including interim periods with those years. Early adoption is permitted. The impact of adoption of the standard has not yet been determined.

3. Interim Consolidated financial statement details

The following consolidated financial statement details are presented as of the period ended for the consolidated balance sheets and for the periods ended for each of the consolidated statements of operations and comprehensive income (loss).

Consolidated Balance Sheets

Restricted cash:

	<u>October 2, 2016</u>	<u>January 3, 2016</u>
Restricted cash	\$ 537	\$ 805

Restricted cash pertains to deposits which have been guaranteed to a government agency pertaining to the estimated value added taxes (VAT) on the expected value of imported raw materials inventory in Suzhou, China. Cash is generally restricted for a contractual term of 12 months or less and is released when the finished goods are exported or the purchase orders for the expected imported raw materials are cancelled.

Accounts receivable – net:

	<u>October 2, 2016</u>	<u>January 3, 2016</u>
Trade accounts receivable	\$ 23,387	\$ 28,797
Other receivables	539	1,347
Allowance for doubtful accounts	(261)	(259)
Accounts receivable—net	<u>\$ 23,665</u>	<u>\$ 29,885</u>

Inventories:

	<u>October 2, 2016</u>	<u>January 3, 2016</u>
Raw materials	\$ 16,787	\$ 19,385
Work in process	3,503	1,416
Finished goods	1,912	4,400
Parts	789	676
Inventories	<u>\$ 22,991</u>	<u>\$ 25,877</u>

Inventories are recorded net of a provision for obsolescence as at October 2, 2016 and January 3, 2016 of \$278 and \$673 respectively. The decrease in the provision for obsolescence was due primarily to the write down of inventory for two customers that was previously provided for.

3. Interim Consolidated financial statement details cont'd

Property, plant and equipment – net:

	<u>October 2, 2016</u>	<u>January 3, 2016</u>
Cost:		
Land	\$ 1,648	\$ 1,648
Buildings	9,852	9,852
Machinery and equipment (a)	31,663	30,707
Office furniture and equipment	654	599

Obligations under capital leases	20	26	54	95
Interest expense	<u>\$ 164</u>	<u>\$ 300</u>	<u>\$ 598</u>	<u>\$ 914</u>

4. Debt

(a) Revolving credit facility

The Company borrows money under a Revolving Credit and Security Agreement with PNC Bank, National Association (“PNC”) which governs the PNC Revolving Credit Facility and the PNC Long-Term Debt Facility (collectively the “PNC Facilities”) with a term to January 2, 2018. Advances made under the PNC Revolving Credit Facility bear interest at the U.S. base rate, which should approximate prime rate, plus 0.50%. The applicable interest rate for the PNC Long-Term Debt Facility is U.S. base rate plus 1.00%.

The maximum amount of funds available under the PNC Revolving Credit Facility is \$35,000. Availability under the PNC Revolving Credit Facility is subject to certain conditions, including borrowing base conditions based on eligible inventory and accounts receivable, and certain conditions as determined by the lender. The Company is required to use a “lock-box” arrangement for the PNC Revolving Credit Facility, whereby remittances from customers are swept daily to reduce the borrowings under this facility. The PNC Long-Term Debt Facility of \$5,000 matures on January 2, 2018 with quarterly principal payments of \$250. Note, a \$250 payment was scheduled for October 1, 2016 which was a Saturday, so the payment was processed subsequent to our quarter end on Monday, October 3, 2016.

At October 2, 2016, \$8,040 (January 3, 2016 - \$10,721) was outstanding under the PNC Revolving Credit Facility and is classified as a current liability based on the requirement to hold a “lock-box” under the terms of the PNC Revolving Credit Facility.

At October 2, 2016, \$4,500 (January 3, 2016 – \$5,000) was outstanding under the PNC Long-Term Debt Facility.

The PNC Facilities are a joint and several obligations of the Company and its subsidiaries that are borrowers under the facilities and are jointly and severally guaranteed by other subsidiaries of the Company. Repayment under the PNC Facilities is collateralized by the assets of the Company and each of its subsidiaries.

(b) Covenants

The PNC Facilities agreement contains certain financial and non-financial covenants.

The financial covenants require the Company to maintain minimum consolidated fixed charge coverage ratio and limit unfunded capital expenditures (all as defined in the credit agreement governing the PNC Facilities). The financial covenant relating to a minimum consolidated fixed charge coverage ratio is in effect for the twelve months ended October 2, 2016 and thereafter on a rolling twelve month basis until January 2, 2018.

The Company is in compliance with the financial covenants included in the PNC Facilities as of October 2, 2016.

5. Capital stock

Common shares

Issued and outstanding:

The issued and outstanding number of common shares included in shareholders' equity consisted of the following:

	<u>Number of shares</u>	<u>\$</u>
Balance at January 3, 2016	16,417,276	\$ 391
Share issuance	25,125	—
Balance at October 2, 2016	<u>16,510,180</u>	<u>391</u>

Stock Options

For more detailed information regarding the Company's stock option arrangements, see Note 6 of the consolidated financial statements within the Company's Form 10-K for the fiscal period ended January 3, 2016. Stock options of 155,403 were granted during the nine month period ended October 2, 2016. A summary of stock option activity for the nine month period ended October 2, 2016 is as follows:

	<u>Number of options</u>	<u>Weighted average exercise price</u>	<u>Aggregate intrinsic value</u>	<u>Weighted average remaining contractual term (years)</u>
Outstanding at January 3, 2016	655,114	\$ 1.98	—	6.5
Options granted	155,403	\$ 1.34		
Expired	(61,757)	\$ 3.46		
Forfeited	(18,603)	\$ 3.14		
Outstanding at October 2, 2016	<u>730,157</u>	<u>\$ 1.76</u>	<u>\$ 19</u>	<u>6.9</u>
Exercisable at October 2, 2016	<u>365,673</u>	<u>\$ 1.92</u>	<u>\$ —</u>	<u>5.1</u>

During the three month periods ended October 2, 2016 and September 27, 2015, the Company recorded stock-based compensation expense and a corresponding increase in additional paid-in capital of \$20 and \$45, respectively. During the nine month periods ended October 2, 2016 and September 27, 2015, the Company recorded stock-based compensation expense and a corresponding increase in additional paid-in capital of \$62 and \$122, respectively.

Restricted Stock Units

For more detailed information regarding the Company's Restricted Stock Units ("RSU") arrangements, see Note 6 of the consolidated financial statements within the Company's Form 10-K for the fiscal period ended January 3, 2016. RSU's of 595,339 were issued during the nine months ended October 2, 2016. A summary of the RSU activity for the nine month period ended October 2, 2016 is as follows:

	Outstanding RSU	Weighted average stock price	Weighted average remaining contractual term (years)
Outstanding balance at January 3, 2016	479,564	\$ 1.88	0.7
RSU granted	595,339	\$ 0.68	
RSU forfeited	(20,066)	\$ 1.14	
RSU vested and issued in common shares	(25,125)	\$ 1.99	
Outstanding balance at April 3, 2016	1,029,714	\$ 1.15	1.1

Certain RSUs granted during 2014 and 2016 have a market condition such that the awards are vested and issuable only if the market price of the Company's stock meets or exceeds a specified target during the vesting period. If the market condition is not met, the RSUs will not vest and will be forfeited.

Stock based compensation recognized during the three month period ended October 2, 2016 and September 27, 2015 related to the restricted stock units was \$99 and \$81. Stock based compensation recognized during the nine month period ended October 2, 2016 and September 27, 2015 related to the restricted stock units was \$281 and \$222.

6. Income taxes

During the three months period ended October 2, 2016 and September 27, 2015, the Company recorded current income tax expenses of \$97 and \$152, respectively on minimum taxes and taxes on profits in certain foreign jurisdictions. For the three months period ended October 2, 2016 and September 27, 2015, deferred tax recovery of \$81 and \$27, respectively was recorded on temporary differences related to the Mexican operations. During the nine months period ended October 2, 2016 and September 27, 2015, the Company recorded current income tax expenses of \$200 and \$481, respectively on minimum taxes and taxes on profits in certain foreign jurisdictions. For the nine months period ended October 2, 2016 and September 27, 2015 deferred tax recoveries of \$96 and \$86 was recorded on temporary differences related to the Mexican operations.

In assessing the realization of deferred tax assets, management considers whether it is more likely than not that some portion or all of its deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income. Management considers the scheduled reversal of deferred tax liabilities, change of control limitations, projected future taxable income and tax planning strategies in making this assessment. Guidance under ASC 740, Income Taxes, (“ASC 740”) states that forming a conclusion that a valuation allowance is not needed is difficult when there is negative evidence, such as cumulative losses in recent years in the jurisdictions to which the deferred tax assets relate. The U.S., Canadian and Asian jurisdictions continue to have a full valuation allowance recorded against the deferred tax assets.

7. Earnings (loss) per common share

The following table details the weighted average number of common shares outstanding for the purposes of computing basic and diluted earnings per common share for the following periods:

	Three months ended		Nine months ended	
	October 2, 2016	September 27, 2015	October 2, 2016	September 27, 2015
Basic weighted average shares outstanding	16,510,180	16,417,276	16,502,081	16,417,276
Dilutive stock awards (a) (b) (c)	—	—	1,048,074	—
Diluted weighted average shares outstanding	16,510,180	16,417,276	17,550,155	16,417,276

- (a) Dilutive stock awards include outstanding RSU's and in-the money stock options determined using the treasury stock method
- (b) Dilutive options were determined using the treasury stock method, using an average price of \$1.52 per share for three months ended October 2, 2016. As a result of the net loss for the three months ended October 2, 2016, diluted earnings per share was calculated using the basic weighted average shares outstanding as the effect of potential common shares would have been anti-dilutive. Had there been net income for the three months ended October 2, 2016, dilutive stock awards would have been calculated as 1,046,730. For the nine months ended October 2, 2016, dilutive options were determined using the treasury stock method, using an average price of \$1.47 per share. Total dilutive stock awards were calculated as 1,048,074.
- (c) For the three months and nine months ended September 27, 2015, as a result of the net loss, diluted earnings per share was calculated using the basic weighted average shares outstanding as the effect of potential common shares would have been anti-dilutive. Had there been net income for the three and nine months ended September 27, 2015, there still would be no dilutive stock awards as no outstanding stock options were considered in the money.

8. Segmented information

General description

The Company is operated and managed geographically and has production facilities in the United States, Mexico and China. The Company utilizes reportable segment's site contribution (site revenues minus operating expenses, excluding unrealized foreign exchange gain (loss) on unsettled forward exchange contracts, corporate allocations and restructuring expenses) to monitor reportable segment performance. Site contribution is utilized by the chief operating decision-maker as the indicator of reportable segment performance, as it reflects costs which our operating site management is directly responsible for. Intersegment adjustments reflect intersegment sales that are generally recorded at prices that approximate arm's-length transactions. In assessing the performance of the reportable segments, management attributes site revenue to the reportable segment that ships the product to the customer, irrespective of the product's destination. Information about the reportable segments is as follows:

	Three months ended		Nine months ended	
	October 2, 2016	September 27, 2015	October 2, 2016	September 27, 2015
Revenues				
Mexico	\$ 24,857	\$ 34,753	\$ 77,321	\$ 109,515
China	15,134	12,055	41,891	33,547

Total	\$ 14,929	\$ 16,443

(a) Property, plant and equipment information is based on the principal location of the asset.

Geographic revenues

The following table contains geographic revenues based on the product shipment destination, for the three and nine months ended October 2, 2016 and September 27, 2015:

	Three months ended		Nine months ended	
	October 2, 2016	September 27, 2015	October 2, 2016	September 27, 2015
U.S.	\$ 29,470	\$ 41,821	\$ 83,848	\$ 128,214
Canada	9,132	7,186	32,832	18,973
Europe	592	1,163	1,497	3,524
China	1,751	584	4,403	2,134
Africa	1,738	2,672	5,638	7,066
Total	\$ 42,683	\$ 53,425	\$ 128,218	\$ 159,880

Significant customers and concentration of credit risk:

Sales of the Company's products are concentrated in certain cases among specific customers in the same industry. The Company is subject to concentrations of credit risk in trade receivables. The Company considers concentrations of credit risk in establishing the allowance for doubtful accounts and believes the recorded allowances are adequate.

The Company expects to continue to depend upon a relatively small number of customers for a significant percentage of its revenue. In addition to having a limited number of customers, the Company manufactures a limited number of products for each customer. If the Company loses any of its larger customers or any product line manufactured for one of its larger customers, it could experience a significant reduction in revenue. Also, the insolvency of one or more of its larger customers or the inability of one or more of its larger customers to pay for its orders could decrease revenue. As many costs and operating expenses are relatively fixed, a reduction in net revenue can decrease profit margins and adversely affect the business, financial condition and results of operations.

During the three months ended October 2, 2016, two customers exceeded 10% of total revenues representing 15.6% and 10.2% respectively (September 27, 2015 – two customers represented 16.0% and 11.7%) of total revenue for the third quarter of 2016. During the nine months ended October 2, 2016 two customers individually comprised 15.8% and 15.4% (September 27, 2015 – two customers individually comprised 14.5% and 11.6%) of total revenue for the nine months ended October 2, 2016.

As of October 2, 2016, two customers exceeded 10% of the Company's accounts receivable representing 12.1% and 10.6% respectively, (January 3, 2016, one customer represented 16.8% of the Company's accounts receivable).

9. Derivative financial instruments

The Company enters into forward foreign exchange contracts to reduce its exposure to foreign exchange currency rate fluctuations related to forecasted Canadian dollar and Mexican Peso denominated payroll, rent and utility cash flows for the three remaining months of fiscal 2016 and a portion of the first nine months of fiscal 2017. These contracts are effective economic hedges but do not qualify for hedge accounting under ASC 815 "Derivatives and Hedging". Accordingly, changes in the fair value of these derivative contracts are recognized into cost of sales in the consolidated statement of operations and comprehensive income (loss). The Company does not enter into forward foreign exchange contracts for trading or speculative purposes.

The following table presents a summary of the outstanding foreign currency forward contracts as at October 2, 2016:

Currency	Buy/Sell	Foreign Currency Amount	Notional Contract Value in USD
Canadian Dollar	Buy	CAD 6,000	\$ 4,496
Mexican Peso	Buy	MXN 197,070	\$ 11,160

The unrealized loss recognized in earnings for the three month period as a result of revaluing the outstanding instruments to fair value on October 2, 2016 was \$4 (September 27, 2015 – unrealized loss \$805), and the unrealized gain for the nine month period ended October 2, 2016 was \$995 (September 27, 2015 – unrealized loss \$334), which was included in cost of sales in the consolidated statement of operations and comprehensive income (loss). The realized loss on the settled contracts for the three months period ended October 2, 2016 was \$619 (September 27, 2015 – realized loss \$1,237), and the realized loss for the nine month period ended October 2, 2016 was \$2,197 (September 27, 2015 – realized loss \$3,119), which is included in cost of sales in the consolidated statement of operations and comprehensive income (loss). Fair value was determined using the market approach with valuation based on market observables (Level 2 quantitative inputs in the hierarchy set forth under ASC 820 "Fair Value Measurements").

	October 2, 2016	January 3, 2016
Average USD:CAD contract rate	1.33	1.26
Average USD:CAD mark-to-market rate	1.31	1.38
Average USD:PESO contract rate	17.66	15.88
Average USD:PESO mark-to-market rate	19.74	17.47

The derivative asset as at October 2, 2016 was \$83 (\$Nil as at January 3, 2016) and derivative liability as at October 2, 2016 was \$1,175 (\$2,087 as at January 3, 2016) which reflected the fair market value of the unsettled forward foreign exchange contracts.

10. Restructuring charges

During the first quarter of 2016, one employee was terminated in the Markham facility which resulted in severance charges of \$176 based on the termination payments which will be paid monthly until the first quarter of 2017. No restructuring charges were incurred for the three months ended October 2, 2016.

	<u>Severance</u>	
Balance as at January 3, 2016	\$	—
Charges		176
Payments		<u>(110)</u>
Balance as at October 2, 2016	<u>\$</u>	<u>66</u>

11. Commitments

Purchase obligations not recorded on the balance sheet as at October 2, 2016 consist of open non-cancellable purchase orders for raw materials for \$15,753 (September 27, 2015 - \$18,538), which are expected to be received within 12 months of the purchase order issue date.

The Company executed two new facility lease agreements located in Fremont, California during the quarter. One location represents a lease term of three years commencing on October 1, 2016 for approximately 46,940 rentable square feet with a base rent of \$46 per month with an escalation factor each year thereafter. The second location represents a lease term of five years commencing on August 1, 2016 for approximately 20,828 rentable square feet with a base rent of \$23 per month with an escalation factor each year thereafter. The Company plans to transfer current operations in the San Jose, California leased location to these two new facilities by the end of the fourth quarter of 2016. The current San Jose facility lease expires on December 31, 2016.

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Where we say "we", "us", "our", the "Company" or "SMTC", we mean SMTC Corporation or SMTC Corporation and its subsidiaries, as the context may require. Where we refer to the "industry", we mean the electronics manufacturing services industry.

You should read this Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") in combination with the accompanying unaudited interim consolidated financial statements and related notes as well as the audited consolidated financial statements and the accompanying notes to the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") included within the Company's Annual Report on Form 10-K filed on March 17, 2016. The forward-looking statements in this discussion regarding the electronics manufacturing services industry, our expectations regarding our future performance, liquidity and capital resources and other non-historical statements in this discussion include numerous risks and uncertainties, some of which are as described in the "Risk Factors" section in the Annual Report on Form 10-K filed on March 17, 2016, as updated by Item 1A in Part II of this quarterly report. Certain statements in this MD&A contain words such as "could", "expects", "may", "anticipates", "believes", "intends", "estimates", "plans", "envisions", "seeks" and other similar language and are considered forward looking statements or information under applicable securities laws. These statements are based on our current expectations, estimates, forecasts and projections about the operating environment, economies and markets in which we operate. These statements are subject to important assumptions, risks and uncertainties, which are difficult to predict and the actual outcome may be materially different. We may not update these forward-looking statements after the date of this Form 10-Q, even though our situation may change in the future. All forward-looking statements attributable to us are expressly qualified by these cautionary statements.

This MD&A contains discussion in U.S. dollars (US\$) unless specifically stated otherwise.

Background

SMTC Corporation is a mid-tier provider of end-to-end electronics manufacturing services, or EMS, including product design and sustaining engineering services, printed circuit board assembly, or PCBA, production, enclosure fabrication, systems integration and comprehensive testing services. SMTC facilities span a broad footprint in the United States, Mexico, and China, with approximately 1,330 full-time employees. SMTC's services extend over the entire electronic product life cycle from the development and introduction of new products through to growth, maturity and end-of-life phases. SMTC offers fully integrated contract manufacturing services with a distinctive approach to global original equipment manufacturers, or OEMs, and technology companies primarily within the industrial, computing and communications, power and energy and medical market segments. In addition, the Company operates an international sourcing and procurement office in Hong Kong.

Results of Operations

The interim consolidated financial statements of SMTC are prepared in accordance with U.S. GAAP.

Quarter ended October 2, 2016 compared with the quarter ended September 27, 2015:

The following table sets forth summarized operating results in millions of US\$ for the periods indicated:

	Three months ended October 2, 2016		Three months ended September 27, 2015		Change 2015 to 2016	
	\$	%	\$	%	\$	%
Revenue	42.7	100.0	53.4	100.0	(10.7)	(20.0)
Cost of sales	39.1	91.6	50.3	94.2	(11.2)	(22.3)
Gross profit	3.6	8.4	3.1	5.8	0.5	16.1
Selling, general and administrative expenses	3.5	8.2	4.0	7.5	(0.5)	(12.5)
Operating earnings (loss)	0.1	0.2	(0.9)	(1.7)	1.0	111.1
Interest expense	0.2	0.5	0.3	0.6	(0.1)	(33.3)
Loss before income taxes	(0.1)	(0.2)	(1.2)	(2.3)	1.1	91.7
Income tax expense	0.0	0.0	0.1	0.2	(0.1)	100.0
Net loss	(0.1)	(0.2)	(1.3)	(2.4)	1.2	92.3

Revenue

Revenue decreased by \$10.7 million, or 20.0%, from \$53.4 million for the third quarter of 2015 to \$42.7 million for the third quarter of 2016. The decrease was primarily the result of reduced volumes of \$17.0 million, of which a decrease of \$8.8 million resulted from two customers which have transferred all business to other contract manufacturers while a reduction of \$8.2 million was due to one customer's reduced demand. The decreases were partially offset by increases in new customer revenue, specifically two new customers which represented \$6.1 million of additional revenue during the quarter.

During the third quarter of 2016, revenue from the industrial sector decreased to \$15.9 million compared with \$26.4 million for the same period in 2015, mainly due to reduced volumes from three customers, two of which have transferred all business to other contract manufacturers. Revenue from the industrial sector as a percentage of total revenue decreased to 37.2% from 49.4% in the third quarters of 2016 and 2015, respectively.

Revenue from the networking and communications sector decreased in the third quarter of 2016 to \$16.1 million compared to \$21.0 million for the third quarter of 2015. The decrease was due to reductions in revenues from one customer which experienced lower demand partially offset by new customer revenue of \$1.8 million and volume increases with an existing customer of \$1.2 million. Revenue from the networking and communications sector as a percentage of total revenue decreased to 37.7% from 39.3% in the third quarters of 2016 and 2015, respectively.

Revenue from the power and energy sector decreased to \$2.5 million or 5.9% of total revenue for the third quarter of 2016 compared with \$3.0 million or 5.6% of total revenue for the same period in 2015. The decrease in revenue was due to reduced volume from two customers which had reduced demand partially offset by revenue from three new customers.

Revenue for the medical sector increased to \$8.2 million in the third quarter of 2016, compared to \$3.0 million in the third quarter of 2015 primarily as a result of increased revenues of \$4.6 million related to two new customers which ramped during the quarter in addition to increased volumes with one long standing customer. Revenue from the medical sector as a percentage of total revenue increased to 19.2% in the third quarter of 2016 compared with 5.7% in the third quarter of 2015.

During the third quarter of 2016 and 2015, the Company recorded approximately \$2.8 million and \$1.6 million, respectively of sales of raw materials inventory to customers, which carried limited margin. The Company purchases raw materials based on customer purchase orders. When a customer requires an order to be altered or changed, the customer is generally obligated to purchase the original on-order raw material at cost, to the extent the materials are not consumed within a specified period.

Due to changes in market conditions, the life cycle of products, the nature of specific programs and other factors, revenues from a particular customer typically varies from quarter-to-quarter and year-to-year. The Company's ten largest customers represented 78.4% of revenue during the third quarter of 2016, compared with 80.1% in the third quarter of 2015. Revenue from the two largest customers during the third quarter of 2016 was \$6.6 million and \$4.4 million representing 15.6% and 10.2% respectively. This compares with revenues from the largest customers during the third quarter of 2015 which was \$8.5 million and \$6.2 million representing 16.0% and 11.7% respectively. No other customers represented more than 10% of revenue in either period.

During the third quarter of 2016, 57.9% of our revenue was attributable to production from our operations in Mexico, 30.5% in China and 11.6% in the US. During the third quarter of 2015, 64.8% of our revenue was attributable to production from our operations in Mexico, 18.2% in China and 17.0% in the US.

Gross Profit

Gross profit for the third quarter of 2016 increased by \$0.5 million to \$3.6 million or 8.4% of revenue compared with \$3.1 million or 5.8% of revenue for the same period in 2015. When removing the impact of the unrealized foreign exchange loss on unsettled forward contracts the adjusted gross profit percentage in the third quarter of 2016 was 8.4% compared to 7.3% in the same period of prior year. Revenues decreased by 20.0% in the third quarter of 2016 compared to the same period in prior year, however the gross profit percentage increased. The increase in gross profit percentage was due to improved margins due to product mix, reduced manufacturing expenses and reduced direct labor charges and more favorable foreign exchange rates.

Non-GAAP Gross Profit and Adjusted Gross Profit Reconciliation:

The Company presents this adjusted gross profit amount as we evaluate gross margins internally excluding the non-cash unrealized foreign exchange loss on unsettled forward exchange contracts as management does not consider this to be a relevant financial indicator in evaluating the Company's operating performance. Management does not however, eliminate the realized loss on the cash settled forward exchange contracts from gross profit. Below is the reconciliation from the U.S. GAAP measure of gross profit to adjusted gross profit:

	Three months ended October 2, 2016	Three months ended September 27, 2015
Gross profit	\$ 3,634	\$ 3,116
Add:		
Unrealized foreign exchange loss on unsettled forward exchange contracts	4	805
Adjusted gross profit	<u>\$ 3,638</u>	<u>\$ 3,921</u>

The Company entered into forward foreign exchange contracts to reduce its exposure to foreign exchange currency rate fluctuations related to forecasted Canadian dollar and Mexican peso expenditures. These contracts were effective as hedges from an economic perspective, but did not meet the requirements for hedge accounting under ASC Topic 815 "Derivatives and Hedging". Accordingly, changes in the fair value of these contracts were recognized into cost of sales in the consolidated statement of operations and comprehensive loss. Included in cost of sales for the third quarter of 2016 was a nominal unrealized loss recognized as a result of revaluing the instruments to fair value, and a realized loss of \$0.6 million. Included in cost of sales for the third quarter of 2015 was an unrealized loss recognized as a result of revaluing the instruments to fair value of \$0.8 million, and a realized loss of \$1.2 million.

	October 2, 2016	January 3, 2016
Average USD:CAD contract rate	1.33	1.26
Average USD:CAD mark-to-market rate	1.31	1.38
Average USD:PESO contract rate	17.66	15.88
Average USD:PESO mark-to-market rate	19.74	17.47

Non-GAAP EBITDA and Adjusted EBITDA Reconciliation:

Management has presented EBITDA and adjusted EBITDA, as it is utilized to monitor performance against budget as well as compliance with bank covenants. We also believe EBITDA and adjusted EBITDA provides useful information to investors in understanding and evaluating our operating results in the same manner as management.

Below is the reconciliation of net loss to EBITDA and adjusted EBITDA, both of which are non-GAAP measures.

	Three months ended October 2, 2016	Three months ended September 27, 2015
Net loss	\$ (19)	\$ (1,343)
Add:		
Depreciation	1,045	981
Interest	164	300
Taxes	16	125
EBITDA	<u>\$ 1,206</u>	<u>\$ 63</u>
Add:		
Stock based compensation	119	126
Unrealized foreign exchange loss on unsettled forward exchange contracts	4	805
Adjusted EBITDA	<u>\$ 1,329</u>	<u>\$ 994</u>

Despite the reduction in revenue, adjusted EBITDA increased to \$1.3 million in the third quarter of 2016 up from \$1.0 million for the same period in the prior year mainly due to reduced selling, general and administrative expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased by \$0.5 million during the third quarter of 2016 to \$3.5 million compared to \$4.0 million in the third quarter of 2015. The reduced selling, general and administrative expenses was primarily the result of professional service fees of \$0.4 million incurred in the third quarter of 2015 in connection with the mergers and acquisitions strategy that were not incurred in 2016. In addition, there were reduced labor and business travel expenses incurred in the third quarter of 2016 compared to the same period in prior year.

Interest Expense

Interest expense decreased to \$0.2 million in the third quarter of 2016 from \$0.3 million for the same period in 2015. The decrease of \$0.1 million resulted from a lower average debt balance and lower weighted average interest rates. The weighted average interest rates with respect to the debt were 4.1% and 4.2% for the third quarters of 2016 and 2015, respectively.

Income Tax Expense

The Company recorded income tax expense of \$0.02 million in the third quarter of 2016 compared to \$0.1 million for the same period in 2015 due to minimum taxes and taxes on profits in certain jurisdictions. For the third quarters of 2016 and 2015 a deferred income tax recovery of less than \$0.1 million was recorded on temporary differences related to the Mexican operations.

Six months ended October 2, 2016 compared with nine months ended September 27, 2015:

The following table sets forth summarized operating results in millions of US\$ for the periods indicated:

	Nine months ended October 2, 2016		Nine months ended September 27, 2015		Change 2015 to 2016	
	\$	%	\$	%	\$	%
Revenue	128.2	100.0	159.9	100.0	(31.7)	(19.8)
Cost of sales	116.6	91.0	147.7	92.4	(31.1)	(21.1)
Gross profit	11.6	9.0	12.2	7.6	(0.6)	(4.9)
Selling, general and administrative expenses	10.4	8.1	11.7	7.3	(1.3)	(11.1)
Restructuring charges	0.2	0.2	—	—	0.2	—
Operating earnings	1.0	0.8	0.5	0.3	0.5	100.0
Interest expense	0.6	0.5	0.9	0.6	(0.3)	(33.3)
Income (loss) before income taxes	0.4	0.3	(0.4)	(0.3)	0.8	200.0
Income tax expense	0.1	0.1	0.4	0.2	(0.3)	(75.0)
Net income (loss)	0.3	0.2	(0.8)	(0.5)	1.1	137.5

Revenue

Revenue decreased by \$31.7 million, or 19.8%, from \$159.9 million for the nine months period ended 2015 to \$128.2 million for the nine months period ended 2016. The decrease was primarily the result of reduced volumes of \$42.5 million due to two customers which have transferred all business to other contract manufacturers and one customer's product which has reached end of life. This decreased was partially offset by new customer revenue of \$12.7 million in addition to net volume increases with existing customers of \$1.9 million.

During the nine months period ended 2016, revenue from the industrial sector decreased to \$51.7 million from \$81.0 million for the same period in 2015, representing a 36.2% reduction. This was primarily due to reduced revenues from two customers which have transferred all business to other contract manufacturers which was partially offset by net volume increases with other existing customers. Revenue from the industrial sector as a percentage of total revenue decreased to 40.3% for the nine months ended 2016 down from 50.7% for the same period in 2015.

Revenue from the networking and communications sector decreased for the nine months period ended 2016 to \$53.2 million compared to \$63.2 million for the same period in 2015. The decrease of 15.8% was due to reductions in revenues of \$27.3 million from two customers; one customer decrease was due to the product going end of life and an additional customer experienced higher product demand for the same period in the prior year. These reductions were partially offset by demand increases with two customers of \$9.4 million in addition to two new customers which represented additional revenue of \$6.3 million. Revenue from the networking and communications sector as a percentage of total revenue increased to 41.5% up from 39.5% for the nine months ended 2016 and 2015, respectively.

Revenue from the power and energy sector was \$7.0 million for nine months period ended 2016 and \$7.5 million for the same period in 2015, representing 5.5% and 4.7%, respectively. The reduction was a result of reduced revenues from two customers which experienced lower demand partially offset by revenue from two new customers.

Revenue for the medical sector increased to \$16.3 million for the nine months period ended 2016, compared to \$8.2 million for the same period in 2015 due to increased volumes from one customer in addition to revenue from one new customer. Revenue from the medical sector as a percentage of total revenue increased to 12.7% and 5.1%, respectively.

During the nine months period ended 2016, the Company recorded approximately \$5.2 million of sales of raw materials inventory to customers, which carried limited margin, compared with \$3.8 million for the same period in 2015. The Company purchases raw materials based on customer purchase orders. When a customer requires an order to be altered or changed, the customer is generally obligated to purchase the original on-order raw material at cost, to the extent the materials are not consumed within a specified period.

Due to changes in market conditions, the life cycle of products, the nature of specific programs and other factors, revenues from a particular customer typically varies from quarter to quarter and year to year. The Company's ten largest customers represented 78.6% of revenue from continuing operations for the nine months period ended 2016, compared with 82.8% for the same period in 2015. Revenue from the two largest customers during the nine months period ended 2016 was \$20.2 million and \$19.8 million, representing 15.8% and 15.4%, respectively of total revenue for the nine months period ended 2016. Revenue from the two largest customers during the nine months period ended 2015 was \$23.2 million and \$18.6 million, representing 14.5% and 11.6%, respectively of total revenue for the nine months period ended 2015. No other customers represented more than 10% of revenue in either period.

During the nine months period ended 2016, 60.0% of our revenue was attributable to production from our operations in Mexico, 28.0% in China and 12.0% in the US. During the nine months period ended 2015, 68.3% of our revenue was attributable to production from our operations in Mexico, 16.3% in China and 15.4% in the US.

Gross Profit

Gross profit for the nine months period ended 2016 decreased by \$0.6 million to \$11.6 million or 9.0% of revenue compared with 7.6% of revenue for the same period in 2015. However, when removing the effects of unrealized foreign exchange (gains) losses on unsettled forward exchange contracts, the adjusted gross profit is 8.3% and 7.8% for the nine months period ended 2016 and 2015, respectively. For the nine months period ended 2016, the reduction in gross margin is due to reduced revenues and the resulting impact to cover fixed costs compared to the same period in prior year which was partially offset by manufacturing efficiencies and reduced labor costs. Margins also improved due to reduced material costs due to product mix and an adjustment the Company recognized during the first quarter which decreased cost of sales by \$0.6 million relating to settled liabilities. In addition, more favorable foreign exchange rates resulted in reduced realized foreign exchange losses for the nine months period ended 2016 when compared to the same period in prior year.

Non-GAAP Gross Profit and Adjusted Gross Profit Reconciliation:

The Company presents this adjusted gross profit amount as we evaluate gross margins internally excluding the non-cash unrealized foreign exchange loss (gain) on unsettled forward exchange contracts as management does not consider this to be a relevant financial indicator in evaluating the Company's operating performance. Management does not however, eliminate the realized loss on the cash settled forward exchange contracts from gross profit. Below is the reconciliation from U.S. GAAP measure of gross profit to adjusted gross profit.

	Nine months ended October 2, 2016	Nine months ended September 27, 2015
Gross profit	\$ 11,603	\$ 12,174
Add (deduct):		
Unrealized foreign exchange (gain) loss on unsettled forward exchange contracts	(995)	334
Adjusted gross profit	<u>\$ 10,608</u>	<u>\$ 12,508</u>

The Company entered into forward foreign exchange contracts to reduce its exposure to foreign exchange currency rate fluctuations related to forecasted Canadian dollar and Mexican peso expenditures. These contracts were effective as hedges from an economic perspective, but did not meet the requirements for hedge accounting under ASC Topic 815 "Derivatives and Hedging". Accordingly, changes in the fair value of these contracts were recognized into cost of sales in the consolidated statement of operations and comprehensive income (loss). Included in cost of sales for the nine months period ended 2016 was an unrealized gain recognized as a result of revaluing the instruments to fair value of \$1.0 million, and a realized loss of \$2.2 million. Included in cost of sales for the nine months period ended 2015 was an unrealized loss recognized as a result of revaluing the instruments to fair value of \$0.3 million, and a realized loss of \$3.1 million.

	October 2, 2016	January 3, 2016
Average USD:CAD contract rate	1.33	1.26
Average USD:CAD mark-to-market rate	1.31	1.38
Average USD:PESO contract rate	17.66	15.88
Average USD:PESO mark-to-market rate	19.74	17.47

Non-GAAP EBITDA and Adjusted EBITDA Reconciliation:

Management has presented EBITDA and adjusted EBITDA, as it is utilized to monitor performance against budget as well as compliance with bank covenants. We also believe EBITDA and adjusted EBITDA provides useful information to investors in understanding and evaluating our operating results in the same manner as management.

Below is the reconciliation of net earnings to EBITDA and adjusted EBITDA, both of which are non-GAAP measures.

	Nine months ended October 2, 2016	Nine months ended September 27, 2015
Net earnings (loss)	\$ 344	\$ (798)
Add:		
Depreciation	3,066	2,976
Interest	598	914
Taxes	104	395
EBITDA	\$ 4,112	\$ 3,487
Add (deduct):		
Restructuring	176	—
Stock based compensation	343	344
Unrealized foreign exchange (gain) loss on unsettled forward exchange contracts	(995)	334
Adjusted EBITDA	\$ 3,636	\$ 4,165

Adjusted EBITDA reduced to \$3.6 million in the nine month period ended 2016 from \$4.2 million for the same period in the prior year, however represented 2.8% of revenue for nine months period ended 2016 compared to 2.6% for the same period in 2015. The reduction in Adjusted EBITDA was due to lower revenue and gross profit, slightly offset by a reduction in selling, general and administrative expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased by \$1.3 million for the nine months period ended 2016 to \$10.4 million compared to \$11.7 million for the same period in the prior year. The decrease was mainly due to reduced professional fees, business trip expenses and administrative headcount.

Restructuring Charges

Restructuring charges were incurred of \$0.2 million in the nine months period ended 2016 related to a termination of one executive position in the Markham, Canada office location in the first quarter of 2016. These charges will be paid until the first quarter of 2017. No restructuring charges were incurred for the nine months period ended 2015.

Interest Expense

Interest expense decreased from \$0.9 million for the nine months period ended 2015 to \$0.6 million for the nine months period ended 2016. The decrease of \$0.3 million was primarily the result of lower average debt balances in addition to reduced interest rates. The weighted average interest rate reduced to 4.2% for the nine months period ended 2016 compared to 4.4% for the nine months period ended 2015.

Income Tax Expense

During the nine months period ended 2016, the Company recorded current income tax charges of \$0.3 million for taxes on profits in foreign jurisdictions offset by tax recoveries of less than \$0.1 million in the U.S. During the nine months period ended 2015, the Company recorded a current income tax expense of \$0.5 million, primarily related to minimum taxes and taxes on profits in certain jurisdictions. For the nine months period ended 2016 and 2015 a deferred income tax recovery of \$0.1 million was recorded on temporary differences related to the Mexican operations.

Liquidity

Net cash provided from operating activities for the nine months period ended 2016 was \$5.8 million compared to \$6.7 million for the nine months period ended 2015 driven by a reduction of accounts receivable compared to the same period in prior year and reduced inventory purchases due to lower sales. This was offset by increased payments of accounts payable and accrued liabilities for the nine months period ended 2016 compared to the same period in prior year which resulted in a decrease in overall cash flow from operations. In addition, the nine months ended 2016 generated net earnings from operations as a result of improved gross margin compared to the same period in prior year and reduced selling, general and administrative expenses for the nine months period ended 2016 due to costs controls, and lower professional fees. Accounts receivable days sales outstanding were 50 and 48 days for the nine months period ended 2016 and 2015, respectively. The increase was largely due to the timing of collections compared to the same period in prior year and changes in customer mix with longer payment terms. Inventory turnover, on an annualized basis increased from 6.5 times in the nine months period ended 2015 to 6.8 times in the nine months period ended 2016 due to improved inventory management. Accounts payable days outstanding increased to 60 days at the end of the nine months period ended 2016 compared to 54 days for the same period in 2015. The increase was due to the timing of payments and improved terms with some vendors.

Net cash used by financing activities during the nine months period ended 2016 was \$3.1 million compared to cash used from financing activities of \$5.6 million for the nine months period ended 2015. The cash used was the result of debt repayments. During the nine months period ended 2016, the Company made revolving debt repayments of \$2.7 million, compared to \$4.7 million during the same period in 2015. The Company also made scheduled term debt repayments of \$0.5 million for the nine months period ended 2016. There was no term debt in 2015. The Company made principal payments for capital leases of \$0.4 million for the nine months period ended 2016 compared to \$0.9 million for the same period in prior year. Payments were partially offset by proceeds from a sale leaseback transaction of \$0.5 million for the nine months period ended 2016 which did not occur in the same period in prior year.

Net cash used in investing activities during the nine months period ended 2016 and 2015 was \$1.5 million and \$1.7 million, respectively, primarily consisting of additions of property, plant and equipment. For the nine months period ended 2016 restricted cash deposits were released in the amount of \$0.3 million and proceeds were received from the sale of property, plant and equipment of \$0.1 million.

Capital Resources

The Company borrows money under a Revolving Credit and Security Agreement with PNC which governs the PNC Revolving Credit Facility and the PNC Long-Term Debt Facility which expires on January 2, 2018. Advances made under the PNC Revolving Credit Facility bear interest at the U.S. base rate plus 0.50%. The Company also has a Long-Term Debt Facility with PNC which also expires on January 2, 2018 and bears interest at the U.S. base rate plus 1.00%. Collectively, the PNC Revolving Credit Facility and the PNC Long-Term Debt Facility are referred to as the PNC Facilities.

We believe that cash generated from operations, available cash and amounts available under our PNC Facilities and additional financing sources such as leasing companies and other lenders will be adequate to meet our debt service requirements, capital expenditures and working capital needs at our current level of operations for the foreseeable future, although no assurance can be given in this regard, particularly with respect to amounts available from lenders. We have agreed to a borrowing base formula under which the amount we are permitted to borrow under the PNC Facilities is based on our accounts receivable and inventory. Further, there can be no assurance that our business will generate sufficient cash flow from operations or that future borrowings will be available to enable us to service our indebtedness. Our future operating performance and ability to service indebtedness will be subject to future economic conditions and to financial, business and other factors, certain of which are beyond our control.

Item 3 Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

The PNC Facilities bears interest at a floating rate. The weighted average interest rate incurred on the PNC Facilities for the quarter ended October 2, 2016 was 4.1%. At October 2, 2016, the interest rate on the PNC Revolving Credit Facility was 4.0% based on the U.S. prime rate plus 0.50% and the interest rate on the PNC Long-Term Debt Facility was 4.5% based on U.S. prime plus 1.00%.

The impact of a 10% change in interest rates would not have a significant impact on our reported earnings.

Foreign Currency Exchange Risk

As a result of operating a global business, we are exposed to exchange rate fluctuations on expenditures denominated in foreign currencies. However, most of our sales and component purchases are denominated in U.S. dollars, which limits our foreign currency risk. Our foreign exchange risk relates primarily to our Canadian, Mexican and Asian payroll, Euro based component purchases and other various operating expenses denominated in local currencies in our geographic locations. To mitigate this risk, the Company enters into forward foreign exchange contracts to reduce its exposure to foreign exchange currency rate fluctuations related to forecasted Canadian dollar and Mexican peso. The strengthening of the Canadian dollar and Mexican peso would result in an increase in costs to the organization and may lead to a reduction in reported earnings.

The impact of a 10% change in exchange rates would not have a significant impact on our reported earnings, with the assumption that management has effectively hedged its foreign exchange risk with the purchase of forward exchange contracts.

Credit Risk

In the normal course of operations, there is a risk that a counterparty may default on its contractual obligations to us which would result in a financial loss that could impact our reported earnings. In order to mitigate this risk, we complete credit approval procedures for new and existing customers and obtain credit insurance where it is financially viable to do so given anticipated revenue volumes, in addition to monitoring our customers' financial performance. We believe our procedures in place to mitigate customer credit risk and the respective allowance for doubtful accounts are adequate.

There is limited risk of financial loss from defaults on our outstanding forward currency contracts as the counterparty to the transactions had a Standard and Poor's rating of A- or above as at September 30, 2016.

Liquidity Risk

There is a risk that we may not have sufficient cash available to satisfy our financial obligations as they come due. The financial liabilities we have recorded in the form of accounts payable, accrued liabilities and other current liabilities are primarily due within 90 days with the exception of the current portion of capital lease obligations which could exceed 90 days and the PNC Revolving Credit Facility which utilizes a lock-box to pay down the obligation effectively daily. Principal payments for the PNC Long-Term Debt Facility are made on a quarterly basis. We believe that cash flow from operations, together with cash on hand and our PNC Revolving Credit Facility, which has a credit limit of \$35 million and PNC Long-Term Debt Facility of \$4.5 million are sufficient to fund our financial obligations.

Item 4 Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

As of the end of the period covered by this quarterly report, the Company's Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Accounting Officer) have conducted an evaluation of the Company's disclosure controls and procedures. Based on their evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective during and as at October 2, 2016 to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the applicable Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting that occurred during the quarter ended October 2, 2016 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

Part II OTHER INFORMATION

Item 1A Risk Factors

There are no material changes to the risk factors disclosed in the "Risk Factors" section of the Company's Annual Report on Form 10-K for the year ended January 3, 2016.

CERTIFICATION

I, Sushil Dhiman, certify that:

1. I have reviewed this quarterly report on Form 10-Q of SMTC Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles of the United States of America;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
